Objective

I am an adaptable, driven, and forward-thinking Java developer with combined strengths in Information Technology and a unique blend of financial systems. I am committed to leveraging technical proficiency and business acumen to support innovative, real-world applications and creating software that works as smart as it runs.

Education

- Software Developer (Java) | Current | Faith Mangope Technology & Leadership Institute
- Higher Certificate in Information Technology & Computer Science | 2024 | Tshwane South TVET College
- Diploma in Financial Management | 2021 | Pentagon College
- National Senior Certificate | 2020 | St. Bede's High School

Technical Skills

Languages/Frameworks: VB.Net, Java, JavaScript, Python (intro), C++ (intro)

Web Development: HTML, CSS, JavaScript

Networking Tools: Cisco NetAcad Packet Tracer

Productivity Tools: Microsoft Office (Word, Excel, PowerPoint)

Accounting Tools: Sage Pastel Accounting

Core Competencies: Troubleshooting, Problem-Solving, Team Collaboration, Cybersecurity Awareness

Projects & Trainings

Council for Scientific and Industrial Research (CSIR) - IT Exposure Program | August 2024
Participated in a two-day workshop exploring Cybersecurity, Python, C++, and the evolution of IT.
Gained insight into research-driven tech development and innovation.
All projects are uploaded on my **GitHub** page and are made public.

Certifications

Microsoft: Azure Fundamentals | HTML Application Development | Software Developer | Soft Skills
| Career Essential in Generative AI

Oracle Certified Associate: Java SE 8 Programmer
